1. Introduction

2. Summary Statistics

3. Alphabetical Listing of Firms

4. Listing of Firms by Industrial Classification (4-digit SIC code)

INTRODUCTION

This directory provides an alphabetical listing of manufacturing and warehousing firms in the City of Toronto. A separate listing by Standard Industrial Classification (SIC) Code facilitates locating any firm by product or activity.

The SIC system arranges individual firms into industrial groupings. Each specific industry has a 4-digit code number (eg. 2811 - Business Forms printing). The first three digits represent the industry group (eg. 281 - Commercial printing) while the first two digits represent major groups (eg. Printing, Publishing, and allied industries). These major groupings are included in the directory, with Printing and Publishing being included as part of Manufacturing:

INDUSTRY CATEGORY	SIC CODES INCLUDED (FIRST 2 DIGITS)
Manufacturing Industries	10 - 39
Construction Industries	40 - 44
Transportation and Storage Industries	45 - 47
Communication and Other Utility Industries	48 - 49
Wholesale Trade Industries	50 - 59
Business Service Industries	77
Other Service Industries	96 - 99

A more detailed listing of 2-digit categories appears on page 12 and lists firm names by Canadian SIC code. U. S. SIC codes are included as an added reference in the master listing.

The master listing for each firm appears in the alphabetical section, in the following format:

FIRM NAME	TELEPHONE NUMBER	NUMBER OF	CANADIAN SIC CODE	U.S. SIC CODE
STREET ADDRESS, POSTAL CODE	KEY CONTACT PERSON (POSITION IN FIRM)	EMPLOYEES	MAJOR PRODUCT OR ACTIVITY	

Unless otherwise indicated, all addresses are in Toronto (Ontario, Canada) and all telephone area codes are 416. In addressing correspondence, postal codes should appear in the last line of the address. Where two addresses are given for a listed firm, the second address denotes the address of the contact for the firm.

ECONOMIC DEVELOPMENT DIVISION
DEPARTMENT OF PLANNING AND DEVELOPMENT

Our team of specialists offers advice and assistance to locating or expanding businesses and provides economic and strategic information pertaining to Toronto investment opportunities. The Industrial Directory is part of this service.

In addition, we provide a linkage for co-operation and support from local business, educational institutions, labour organizations, senior governments and City Departments. All enquiries are confidential, and services are tailored to your specific requirements.

- Industrial Enquiries and Assistance to Industry

  We provide information and assistance to individuals and corporations on City by-laws, regulations and procedures, incentives and assistance provided by other levels of government, and the availability of other firms for joint ventures.

- Economic Development Profile, Industrial Directories and Sites

  Directories and research packages provide detailed decision data and inventories of vacant industrial and commercial land and buildings for prospective investors. Information on individual sites is also available.

The total number of firms are distributed according to number of employees as follows:

Size	No. of Firms
0 - 9 employees	1301
10- 49 employees	676
50- 99 employees	115
100-249 employees	87
250-499 employees	32
More than 500 employees	20

One very useful product of the computerization is the ability to segregate employment by industry. The following listing uses two-digit SIC codes. Some firms are listed under non-manufacturing codes (SIC 50-99) as a result of the principal activity of the firm being other than manufacturing.
